

FTP guide - customer version (set up & uploading)

1. Download FileZilla (Freeware) & Install

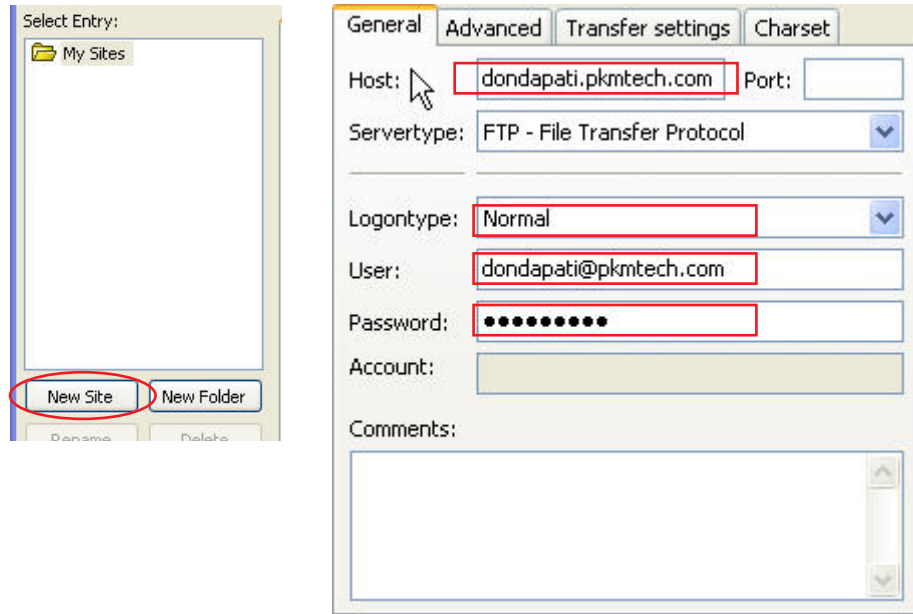

- <http://filezilla-project.org/download.php>
- Install to pc

2. Create new FTP site (Dondapati)

- click <Site Manager>

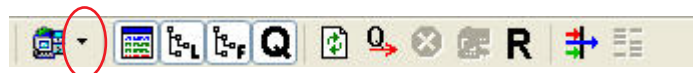

- click <New Site>, name it as Dondapati
- Key in the site info

Host: dondapati.pkmtech.com
Logontype: Normal
User: dondapati@pkmtech.com
Password: !dondapati

- click <OK>
- click <Triangle> (beside site manager), click <Dondapati>

3. Upload files

- make sure to Zip the folder or artwork before uploading
- Drag from PC (where you keep the zip file) to FTP (create a Folder with your name)
- There is an estimated time for the upload process
